REVIEW

Confirm shipment data

Reset

Required review fields are complete.

Conflicts across documents

- Line 2 quantity: 1,200 / 1,176
- totals grossWeight: 1,930.00 / 1,888.00

Review notes

- **Line 4 assist:** Buyer-supplied material valued at USD 4,180.00; confirm it is a dutiable assist.
- **Line 5:** FOC samples, value stated for customs purpose only.
- **transport processingPort:** Defaulted to the U.S. port of discharge; confirm the port where the entry will be filed.
- **entry type:** Defaulted to 01 (free and dutiable consumption entry); change it for FTZ, warehouse, or informal entries.
- **entry date:** Defaulted to the vessel arrival date; set the actual filing date.

Steps to complete before filing

- Add the importer of record number (EIN, e.g. 12-3456789). It is not on the shipping documents.
- Select the bond type (08 continuous or 09 single transaction); it depends on the importer's bond.
- Classify line(s) 1, 2, 3, 4, 5 to the full 10-digit HTSUS number. The documents give only HS codes, and the HTSUS may require different reporting units (for example DOZ and KG) than the invoice.
- Verify the manufacturer IDs (MIDs) built from the manufacturer details for line(s) 1, 2, 3, 4, 5.
- Confirm the buyer-supplied material (assist) added to the value of line(s) 4 is dutiable.
- Invoice terms are CIF: line values were entered as stated, and freight and insurance were reported under non-dutiable charges. Confirm line values exclude them.
- Resolve the conflicts between documents (Line 2 quantity, totals grossWeight) and correct the values above.
